Senior Product Designer | English C1 | 10+ years

Cover Letter: Principal Product Designer

Linear · Remote · Europe · 21 July 2026

Dear Hiring Team,

Linear sets the bar for how product teams work — speed, focus, and craft in the tools themselves. I am applying for Principal Product Designer (Europe) because I want to bring senior end-to-end design leadership to that mission, with a track record of shipping complex B2B/B2C systems remotely.

Senior Product Designer, 10+ years, English C1, remote 6+ years. Portfolio: <https://neolissa.github.io/polina-tsoy-designer/en/>

- **Systems + velocity**, WUW design system — -90% styles, ×3 speed, White Label unlocked.
- **Ambiguity** → **direction**, DocsBird 0 → 1 — reframed problem, +45% conversion, 4 countries.
- **Multi-surface coherence**, TVIP across 5 platforms — personas, themes, shared patterns.

Honest stretch: Principal title is a step up from my recent Senior IC scope — I bring senior ownership, systems leadership, and async communication at Linear's bar. Based in Argentina; Europe overlap. Comp ask \$75–90K USD geo-adjusted.

Happy to discuss Europe remote setup and relevant case studies.
