Senior Product Designer | English C1 | 10+ years

Cover Letter: Senior Product Designer

Plain Remote · UK 21 July 2026

Dear Hiring Team,

Plain is redefining B2B support — unified channels, AI-assisted workflows, and craft that earns trust in complex products. I am applying because that matches how I work: senior IC ownership, systems thinking, and shipping outcomes with engineering, not handoffs.

Senior Product Designer, 10+ years, English C1, remote 6+ years. Based in Argentina (EU/UK overlap). Portfolio: <https://neolissa.github.io/polina-tsoy-designer/en/>

- **B2B trust & activation**, DocsBird international onboarding — 7 → 3 steps, +45% conversion, 4-country launch.
- **Systems at speed**, WUW design system — 35 components, -90% styles, ×3 delivery speed.
- **Complex multi-surface UX**, TVIP admin + consumer across 5 platforms — coherent IA and patterns.

Comfortable collaborating in the open, prototyping with AI-assisted tools, and partnering on buildable UI (HTML/CSS literacy). Comp ask \$75K USD geo-adjusted.

Happy to walk through B2B case studies and discuss support/workflow UX.
