PROFESSIONAL SUMMARY

Senior Product Designer for complex, high-ownership products - systems thinking, design systems, and shipping with engineers. 10+ years in product; 6+ years fully remote. Strong on power-user / multi-platform UX (TVIP), durable design systems (WakeupWarrior), and 0 to 1 ambiguity (DocsBird). Looking to help Railway raise the bar on developer experience through clear workflows and a living design system.

CORE COMPETENCIES

- Complex systems / power-user UX
- Design systems
- 0 to 1 / ambiguous problem framing
- Eng collaboration (HTML/CSS literate)
- End-to-end ownership
- Figma prototyping
- Async remote (6+ yrs)
- Cross-functional delivery

WORK EXPERIENCE

Ediweb Feb 2024 - Jan 2026

Product Designer - International Products

Remote | International B2B

- Owned end-to-end product design under ambiguity - hypothesis, research, staging validation, and handoff with engineering.
- Built and evolved a shared international UI kit so features shipped from reusable patterns instead of one-off screens.
- Led DocsBird 0 to 1: scenarios, UI, hypothesis tests - launch in 4 countries; registration 7 to 3 steps; +45% conversion.
- Partnered daily with distributed engineers and PMs (Agile/Jira); HTML/CSS literacy for buildable, constraint-aware design.

Ruxsoft Dec 2021 - Feb 2024

Product Designer

Remote

- Ran full-cycle product design: research (corridor, qualitative, quantitative), CJM/User Flows, roadmaps, UI, and design reviews.
- Scaled design systems and White Label kits - enabling commercialization and faster client instances.
- Mentored junior designers; optimized handoff so design sits inside the delivery loop, not beside it.
- Key outcomes: WakeupWarrior design system (~90% styles, x3 delivery, White Label); Relaunch retention platform (x4 session, 100% adoption).

TVIP Apr 2020 - Nov 2021

UX/UI Designer

Saint Petersburg

- Designed complex multi-platform media product UX for technical operators and end users: admin, desktop, mobile - logic, navigation, visual system.
- 4 personas, day/night themes, UI kit across 5 platforms; partnered with engineering through implementation QA - power-user workflows, not marketing pages.

Earlier roles (Tizbi, Finnplay, Corex, Fenice) 2015 - 2020

UX/UI & Web Designer

- Built English-language web/mobile products, White Label UI kits, Agile delivery, and data-informed site optimization (Analytics, click maps).

SELECTED CASE STUDIES

WakeupWarrior Design system

Lead PD - evolutionary refactor: 35 components, tokens, constructor covering ~80% of UI; -90% styles, ×3 development speed, White Label enabled. Case: neolissa.github.io/polina-tsoy-designer/en/wuw.html

TVIP Multi-platform / power users

Product Designer - IP/TV across 5 platforms with personas and day/night themes; admin + consumer surfaces for technical operators. Case: neolissa.github.io/polina-tsoy-designer/en/tvip.html

DocsBird 0 to 1

Lead Product Designer - document management for Europe & Baltics. Design system + brand; registration 7 to 3 steps; +45% conversion; launch in 4 countries.

Relaunch (Relax.coin) Internal platform

Lead PD - unified ecosystem replacing 5+ tools; DS 50+ components; ×4 session time, +40% engagement, 60% mobile, 100% adoption.
