Senior Product Designer | English C1 | 10+ years

Cover Letter: Director of Product Design (SaaS)

Rwazi Global Remote 21 July 2026

Dear Hiring Team,

Rwazi turns consumer intelligence into enterprise habit — dashboards, workflows, and a design system that must drive repeat usage and expansion. I am applying for Director of Product Design (hands-on IC) because that matches how I already work: systems thinking, data-dense UX, and metrics-tied outcomes.

Senior Product Designer, 10+ years, English C1, remote 6+ years. Portfolio: <https://neolissa.github.io/polina-tsoy-designer/en/>

- **Systems ownership**, WUW design system — −90% styles, ×3 speed, White Label as growth unlock.
- **Adoption / habit**, Relaunch employee platform — ×4 session time, +40% engagement, 100% adoption.
- **Complex B2B clarity**, DocsBird international flows — +45% conversion; TVIP multi-audience IA.

I previously applied to Senior Product Designer at Rwazi — this Director role is the IC systems/strategy track I want. Comp ask \$75–90K USD.

Happy to discuss enterprise dashboard UX and design-as-growth.
