Senior Product Designer | English C1 | 10+ years

Cover Letter: Product Designer

Software Mind (Nicoya Health) Remote · Costa Rica / LATAM-friendly 20 July 2026

Dear Hiring Team,

Nicoya Health is turning dense health data into clear, proactive intelligence across web dashboards and a consumer mobile companion. That is the kind of product problem I want to own: complex workflows made calm, trustworthy, and shippable.

I am a Senior Product Designer with 10+ years in product and 6+ years fully remote. English C1. Portfolio: <https://neolissa.github.io/polina-tsoy-designer/en/>

- **WakeupWarrior (design system)**, rebuilt UI as a reusable system so web and product surfaces stay consistent while shipping faster — −90% styles, ×3 development speed, White Label enabled.
- **DocsBird (0 → 1 activation)**, led planning to MVP: registration 7 → 3 steps, +45% conversion, launch in 4 countries.
- **Healthcare / data-dense UX**, designed Medica+ doctor/patient scenarios and financial personal accounts with large data volumes — clarity under clinical and ops constraint.

I am comfortable designing dashboards, onboarding, settings, and mobile companions end to end, partnering with Product and Engineering, and evolving a design system as the product scales. Based in Argentina (near Buenos Aires, ART UTC-3), seeking fully remote international work.

Happy to walk through DocsBird, WakeupWarrior, and healthcare-adjacent cases with your team.
