Senior Product Designer | English C1 | 10+ years

Cover Letter: Product Designer, Growth (Senior/Staff-Level)

Synthesia Remote · Europe 17 July 2026

Dear Hiring Team,

Synthesia's Growth role sits at activation and retention — first-time editor, onboarding overload, and habit formation in a self-serve AI product. That is the work I want to own: metrics, experiments, and clear journeys under ambiguity.

I am a Senior Product Designer with 10+ years in product and 6+ years fully remote. English C1. Portfolio: <https://neolissa.github.io/polina-tsoy-designer/en/>

- **DocsBird (activation)**, reframed registration from "collect everything upfront" to time-to-value — 7 → 3 steps, +45% conversion, launch in 4 countries.
- **Relaunch (retention)**, unified a fragmented employee platform into one habit loop — ×4 session time, +40% engagement, 100% adoption.
- **WakeupWarrior (system speed)**, rebuilt UI as a reusable system so experiments ship faster — −90% styles, ×3 development speed.

I am comfortable partnering in a PM–design–engineering trio, challenging problem framing (not only UI), and elevating rough prototypes into scalable UX. Based in Argentina (near Buenos Aires, ART UTC-3), seeking fully remote work with overlap for a Europe team.

Happy to walk through DocsBird and Relaunch case studies with your Growth team.
