Argentina - small town near Buenos Aires (remote, ART UTC-3)

PROFESSIONAL SUMMARY

Senior Product Designer focused on activation, onboarding, and retention - metrics-first, not screen-first. 10+ years in product; 6+ years fully remote. Proven wins: DocsBird registration 7 to 3 steps (+45% conversion); Relaunch ×4 session time, +40% engagement, 100% adoption. Looking to own first-time and early-habit journeys in an experimental Growth PM-design-engineering trio.

CORE COMPETENCIES

Activation & onboarding

Retention & habit loops

Experimentation / A/B

Self-serve SaaS UX

Metrics-driven design

Design systems

Cross-functional PM partnership

Async remote (6+ yrs)

WORK EXPERIENCE

Ediweb Feb 2024 - Jan 2026

Product Designer - International Products

Remote | International B2B

- Owned activation-critical flows for international B2B - hypothesis, research, staging validation, and handoff with measurable outcomes.
- Led DocsBird onboarding redesign: reframed registration from data-capture to time-to-value - 7 to 3 steps, +45% conversion; launch in 4 countries.
- Built and evolved a shared international UI kit so growth experiments reused patterns instead of reinventing UI each sprint.
- Partnered with distributed PMs and engineers in Agile/Jira; grounded decisions in qual + quant (corridor tests, click maps, A/B).

Ruxsoft Dec 2021 - Feb 2024

Product Designer

Remote

- Ran full-cycle product design: research (corridor, qualitative, quantitative), CJM/User Flows, roadmaps, UI, and design reviews.
- Scaled design systems and White Label kits - enabling commercialization and faster client instances.
- Mentored junior designers; optimized handoff so design sits inside the delivery loop, not beside it.
- Retention / engagement: Relaunch unified fragmented tools into one habit-forming platform - ×4 session time, +40% engagement, 100% adoption.
- Also: WakeupWarrior design system (~90% styles, ×3 delivery speed, White Label) - faster iteration for product experiments.

TVIP Apr 2020 - Nov 2021

UX/UI Designer

Saint Petersburg

- Designed complex multi-platform media product UX: admin, desktop, and mobile - logic, navigation, and visual system.
- Profile system for 4 personas, day/night themes, UI kit for 5 platforms; close collaboration with engineering through implementation QA.

Earlier roles (Tizbi, Finnplay, Corex, Fenice) 2015 - 2020

UX/UI & Web Designer

- Built English-language web/mobile products, White Label UI kits, Agile delivery, and data-informed site optimization (Analytics, click maps).

SELECTED CASE STUDIES

DocsBird International B2B

Activation case - international document product (Europe & Baltics). Cut onboarding overload: registration 7 to 3 steps; +45% conversion; 4-country launch. Case: neolissa.github.io/polina-tsoy-designer/en/docsbird.html

Relaunch (Relax.coin) Retention

Retention / habit case - unified 25+ functions into one platform (DS 50+); ×4 session time, +40% engagement, 60% mobile, 100% adoption.

Case: neolissa.github.io/polina-tsoy-designer/en/relaunch.html

WakeupWarrior Design system

Lead PD - evolutionary refactor: 35 components, tokens, constructor covering ~80% of UI; −90% styles, ×3 development speed, White Label enabled.

TVIP Multi-platform

Product Designer - IP/TV across 5 platforms with personas and day/night themes; admin + consumer surfaces.

EDUCATION

Orel State Institute of Economics and Trade

2018

Higher education - Faculty of Business and Advertising (Advertising & PR)

CERTIFICATIONS

Erickson Coaching International - Coaching²⁰²³

Skill Factory - Agile facilitation²⁰¹⁸

ScrumTrek / Finnplay - Certified Agile Team Facilitator²⁰¹⁸

Skillbox - UI/UX Designer²⁰¹⁸

SKILLS

Research Qual + quant: CustDev, corridor tests, CJM, JTBD, click maps, A/B - used to drive experimentation strategy

Design Figma, onboarding / first-time UX, design systems, tokens, interactive prototyping, web & mobile

Process Metrics ownership (activation/retention), PM partnership, Agile/Jira, design critique, mentoring, MVP experiments

Tech literacy HTML/CSS; comfortable partnering with engineering on buildable UI

Languages Russian (native), English (C1)
