PROFESSIONAL SUMMARY AND SELECTED IMPACT

Senior Product Designer (UX/UI) with 10+ years in product development and 6+ years working remotely. I design complex software from problem framing through polished prototypes, validation, engineering handoff, and measurement. My background combines design systems, strong UI craft, mentoring, HTML/CSS literacy, and AI-assisted personal product work that moves from brief to working browser demo.

- **DocsBird**: launched in 4 countries; registration cut from 7 to 3 steps; conversion increased by 45%.
- **WakeupWarrior**: 35-component system for a 5,000+ user product; ~90% fewer styles; ~3× development speed.
- **Relaunch**: unified 5+ tools; session time increased 4×; engagement rose 40%; 100% adoption.

CORE COMPETENCIES

Complex software UX

 |

AI-assisted prototyping

 |

Figma and working demos

 |

UI craft

 |

Design systems

 |

Mentoring

 |

Async remote collaboration

 |

Engineering partnership

WORK EXPERIENCE

Ediweb Feb 2024 - Jan 2026

Product Designer (International Products)

Remote | International products

- Led DocsBird from planning to MVP: scenarios, interface design, hypothesis testing, and stakeholder presentations; supported a 4-country launch, cut registration from 7 steps to 3, and increased conversion by 45%.
- Built and evolved a shared UI kit across international products, creating consistent desktop and mobile interfaces and faster engineering handoff.
- Owned design work under business and technical constraints, from scenarios and flows through staging validation and iteration.
- Worked with distributed analysts, developers, and PMs through Jira, sprint planning, design reviews, and documented decisions.

Ruxsoft Dec 2021 - Feb 2024

Product Designer

Remote

- Led the WakeupWarrior design-system refactor for a platform with 5,000+ users: reduced styles by ~90%, increased development speed ~3×, enabled White Label, and created a constructor covering ~80% of the interface.
- Redesigned Relaunch / Relax.coin, unifying 5+ fragmented tools; increased session time 4× and engagement by 40%, with 60% mobile activity and 100% adoption.
- Owned product work from research and analytics through user flows, interface design, prototyping, testing, and engineering handoff.
- Mentored junior designers and improved design reviews, handoff, and sprint collaboration with engineering.

TVIP Apr 2020 - Nov 2021

UX/UI Designer

Product ecosystem across web, mobile, and TV

- Designed admin, desktop, mobile, and TV interfaces, including navigation, visual style, interactive prototypes, and implementation QA.
- Created profiles for 4 personas, day/night themes, and a shared UI kit across 5 platforms.

Earlier roles: Tizbi, Finnplay, Corex, Fenice Group 2015 - 2020

UX/UI, Web, and Product Designer

- Designed web and mobile products, White Label UI kits, English-language landing pages, and data-informed site improvements using analytics and click maps.

SELECTED CASE STUDIES

DocsBird International B2B

Product design lead for an international document-management launch. Registration 7 to 3 steps, +45% conversion, 4 countries. Case: neolissa.github.io/polina-tsoy-designer/en/docsbird.html

WakeupWarrior Design system

35 components, tokens, and a constructor covering ~80% of the interface. ~90% fewer styles, ~3× development speed, White Label enabled. Case: neolissa.github.io/polina-tsoy-designer/en/wuw.html

TVIP Consumer | Multi-platform

Media product across 5 platforms with 4 personas, shared UI kit, day/night themes, and implementation QA. Case: neolissa.github.io/polina-tsoy-designer/en/tvip.html

EDUCATION

Orel State Institute of Economics and Trade 2018
Higher education, Faculty of Business and Advertising (Advertising and PR)

CERTIFICATIONS

Erickson Coaching International, Coaching 2023
Skill Factory, Agile facilitation 2018
ScrumTrek / Finnplay, Certified Agile Team Facilitator 2018
Skillbox, UI/UX Designer 2018

SKILLS

Research: UX research, CustDev, interviews, corridor testing, CJM, user flows, JTBD, metrics, click maps, A/B testing
Design: Figma, UI kits, design systems, interactive prototyping, web and mobile UI, motion design, Atomic Design
Process: Product ownership, Jira, design reviews, mentoring, Agile/Scrum, MVP, implementation QA
AI-assisted workflow: Hermes and code-assisted tools in personal QuickLand product work: structure, UX copy, flows, prototypes, and working browser demos
Tech literacy: HTML/CSS; close implementation collaboration with engineering
Languages: Russian (native), English (C1)
