Senior Product Designer | English C1 | 10+ years

Cover Letter: Lead Product Designer

Circle Remote worldwide 20 July 2026

Dear Hiring Team,

Circle is hiring a Lead Product Designer to own a product area end-to-end — problem framing through shipped craft, with AI in the daily workflow. I am applying because that altitude matches how I already work as a senior IC.

Senior Product Designer, 10+ years, 6+ years fully remote, English C1 (working toward C2 fluency in async writing). Portfolio: <https://neolissa.github.io/polina-tsoy-designer/en/>

- **DocsBird (0 → 1 ownership)**, shaped direction under ambiguity — 4-country launch, +45% conversion after simplifying critical flows.
- **WakeupWarrior (systems + speed)**, set reusable patterns (35 components, tokens) — −90% styles, ×3 speed.
- **Relaunch (raise the bar)**, coherent multi-surface platform — ×4 session time, 100% adoption.

Honest level note: my title history is Senior/Lead IC, not “Lead” on every paper. Circle notes Senior-level consideration within the published range — I am open to that. Comp ask \$75–90K geo-adjusted (JD \$140–170K US-benchmark). AI prototyping: active practice with modern tools alongside Figma/HTML/CSS.

Glad to share a deep dive on end-to-end ownership and how I use AI in exploration.
