Senior Product Designer | English C1 | 10+ years

Cover Letter: Senior Product Designer

Customer.io Remote · Americas 20 July 2026

Dear Hiring Team,

Customer.io powers automated messaging that people actually want — and that requires designers who own a product area end-to-end, not hand off mockups. I am applying because that is how I already work: research, systems, and shipped outcomes with engineering.

I am a Senior Product Designer with 10+ years in product and 6+ years fully remote. English C1. Based in Argentina (Americas). Portfolio: <https://neolissa.github.io/polina-tsoy-designer/en/>

- **DocsBird (ownership → metrics)**, owned 0 → 1 international B2B flows — 4-country launch, registration 7 → 3 steps, +45% conversion.
- **WakeupWarrior (systems)**, evolutionary design system (35 components, tokens) — −90% styles, ×3 delivery speed, White Label unlocked.
- **Relaunch (complex platform)**, unified a fragmented internal ecosystem — ×4 session time, +40% engagement, 100% adoption.

I close the gap between design and implementation, contribute to shared UI kits, and am actively expanding AI-assisted prototyping. Compensation ask: \$75K USD geo-adjusted within Americas remote (target \$60–90K).

Happy to walk through portfolio cases and a working sample of end-to-end ownership.
